

## **Education & Dissemination**

Given that part of the objectives of the conference are:

- Empower and support African universities, local and international student teams and local NGOs to carry out sustainable, integrated climate protection and development projects with local communities and to finance them as compensation projects.
- Enable local communities and social institutions to monitor indicators for climate and SDGs
- Determine how the choice of the indicators influences project success

This thematic area addresses further the main objectives of the conference.

Education includes the action or process of capacity building for CO<sub>2</sub> compensation activities integrating climate and sustainable development. This includes learning institutions, NGOs and local communities. Dissemination is the act or process of communicating CO<sub>2</sub> compensation criteria, standards and indicators integrating climate and sustainable development for a broader public.

### **Contributions are invited on the following topics:**

1. The role of service learning/civic engagement for climate and sustainable development in the framework of CO<sub>2</sub> compensation projects
  - a. Capacity building for African local communities and other key stakeholders in CO<sub>2</sub> compensation projects
  - b. Enhancing social mission for African universities and local NGOs
  - c. Integration of CO<sub>2</sub> compensation in curricula
2. The Dissemination of CO<sub>2</sub> compensation certification
  - a. Optimal communication for CO<sub>2</sub> compensation certification
  - b. Success stories and challenges for CO<sub>2</sub> compensation implementation
3. Action plans for CO<sub>2</sub> compensation projects in learning institutions and local NGOs
4. Development of standards, criteria and indicators for CO<sub>2</sub> compensation projects for learning institutions
